Our Programs

Building the Mindset Curriculum

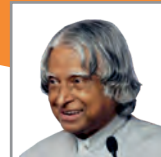

Entrepreneurship Bootcamp for young Minds

Case Competition

Today, the expectations from the educational system have changed a lot compared to a decade ago. **Education is no longer just about textbooks and traditional careers; it now focuses on equipping students with practical skills, creativity, and an entrepreneurial mindset. To meet these new demands, the Government of India has introduced several initiatives to promote entrepreneurship.**

Programs like Startup India encourage young people to start their own businesses, while the **Atal Innovation Mission (AIM)** supports innovation in schools and colleges. The **Pradhan Mantri Kaushal Vikas Yojana (PMKVY)** provides skill training to youth, helping them become job creators instead of job seekers. These initiatives are helping shape a new generation of entrepreneurs, ready to tackle the challenges of the modern world.

Motivational Message

We feel honoured...
"The universities and schools should become a facilitator for creating entrepreneurs through the support of the banking system and the marketing system. This will enhance value to the education and create the motivation for the students. I am glad to know that the EDI will strive to promote social enterprises and technologies targeted at problems of the needy. My greetings to Director, members of the faculty, researchers and students."

Hon'ble Late Dr. Abdul Kalam,
Former President of India
(At EDII on June 20, 2015)

About Young Entrepreneurs Foundation

The Young Entrepreneurs Foundation (YEF) is actively contributing to the integration of new educational requirements by **focusing on developing an entrepreneurial mindset among young school students, from grade 6 to 12.** YEF aims to inspire and equip students with practical skills, knowledge, and confidence, helping them think creatively, make smart decisions, and develop an entrepreneurial mindset for future success.

What YEF offers?

YEF offers various programs to help young minds develop the mindset needed to face challenges and embrace opportunities in today's world.

Young Entrepreneurs:

Building the Mindset Curriculum for School Students

The Young Entrepreneurs: Building the Mindset Curriculum (BMC) equips students (grades VI–XII) with entrepreneurial mindset through innovation, problem-solving, and adaptability. Focused on real-world applications, the program aligns with SDGs 8 & 9, CBSE circulars, NCERT guidelines, and NEP 2020, emphasizing skill-based, experiential learning for sustainable growth.

BMC Approach

Inspirational:

Stories from entrepreneurs through live sessions and curated content.

Experience:

Hands-on activities for practical, engaging learning.

Reflection:

Group discussions to analyze and apply insights.

Entrepreneurship Boot Camps

The YEF Entrepreneurship Bootcamp empowers students aged 12–17 with essential knowledge like design thinking, financial management, and marketing through hands-on activities and expert mentorship.

Entrepreneurship Bootcamp Approach

The YEF Bootcamp empowers students in grades 6–12 to develop creativity, leadership, and teamwork while transforming ideas into ventures. This five-day program offers hands-on experience, networking opportunities, and startup guidance. Backed by decades of expertise and a network of 20,000+ schools, it fosters a global entrepreneurial mindset and sustainable innovation.

Case Competitions

YEF Case Competitions challenge students to solve real-world business problems, fostering creativity, critical thinking, and teamwork. Participants work in teams, presenting innovative solutions to industry experts. The competition offers mentorship, networking opportunities, and rewards for successful ideas, promoting entrepreneurial growth.

Case Competitions Approach

Participants tackle business challenges in teams, using creativity and problem-solving to develop solutions. The competition emphasizes collaboration, feedback, and pitching ideas, providing hands-on experience and entrepreneurial mindset development.

Mission

YEF's mission is to help 6-12 students prepare for the future by fostering a passion for learning and growth. We focus on building an entrepreneurial mindset, giving students the mindset and confidence to adapt, solve problems, and take on challenges. Our aim is to inspire students to continuously improve, discover new opportunities, and pursue entrepreneurial journeys whether by starting a business, creating a social impact, or contributing positively to their community.

Vision

Our vision is to develop the next generation of entrepreneurs who will drive innovation, create opportunities and foster community growth. The entrepreneurship programs aim to foster a supportive ecosystem of mentorship and networking for them with experienced entrepreneurs.

Objective

The objective of YEF is to provide a practical approach to learning that extends beyond traditional education. By helping them develop real-world experience and an entrepreneurial mindset, and hands-on experiences, YEF aims to prepare the next generation to tackle challenges and grab opportunities. Through inspiring young individual, YEF is dedicated to driving progress and creating positive change across all sectors.

Benefits of Participation in YEF Bootcamp, Case Competitions, and Building the Mindset Curriculum

Mentorship & Networking

Connect with industry experts, mentors, and peers for valuable insights.

Real-World Experience

Engage in hands-on activities, competitions, and projects that reflect business challenges.

Confidence & Creativity

Develop confidence and creativity through interactive learning and problem-solving tasks.

Recognition & Rewards

Receive certificates, rewards, and opportunities for startup support and exposure.

Global Mindset

Gain exposure to global entrepreneurial trends, fostering a broader perspective on business and innovation.

ELIGIBILITY | Children from any stream between the age group 12 to 17
